

HOW TO CHOOSE AN ASBESTOS ATTORNEY

By Steven Kazan

Founding, Managing and Senior Principal, Kazan Law

SELECTING AN ATTORNEY TO REPRESENT YOU AND YOUR FAMILY IN AN ASBESTOS CASE IS THE MOST IMPORTANT FINANCIAL DECISION YOU WILL EVER MAKE.

It is even more important than buying a home. Your home could potentially yield several hundred thousand dollars in return on investment. But an asbestos case properly handled by a top-quality law firm that specializes in asbestos cases can be worth millions to you and your family.

Mesothelioma lawyers practice in a highly specialized area of the law. The top attorneys who know the intricacies of asbestos litigation and have the experience to successfully take a case through the court system are in a league of their own and practice only in this area of the law.

WHY YOU SHOULD LOOK BEYOND YOUR COMMUNITY FOR THE BEST ASBESTOS ATTORNEY

Working with a highly regarded and experienced mesothelioma attorney is more valuable than having one who is close by. That is truer than ever today, with the expanded capabilities of internet and cell phone communications. A top-quality asbestos attorney will take the time to come and meet with you no matter where you live. Look for the best asbestos attorneys in the entire United States, not just in your town or county.

The top attorneys who know the intricacies of asbestos litigation and have the experience to successfully take a case through the court system are in a league of their own.

10 QUICK TIPS FOR SELECTING AN ASBESTOS ATTORNEY

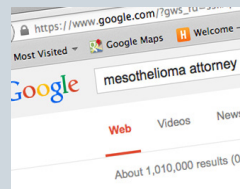

When you begin your search, keep in mind that a good asbestos attorney:

1. Knows a lot about mesothelioma and other asbestos-related diseases
2. Has ample experience in filing asbestos legal claims
3. Can tell you whether you have a good case to bring forward
4. Travels to you
5. Charges you on a contingency basis (no fee unless a settlement is obtained)
6. Provides you with copies of important documents
7. Does not work through a broker
8. Does not appear in late-night TV ads
9. Makes no unrealistic promises
10. Has a website presenting open, honest information

INTERNET SEARCHES FOR AN ASBESTOS ATTORNEY: BEWARE

The internet ads when you search “asbestos attorney” or “mesothelioma attorney” will yield a mixed bag of results. Along with a handful of websites for the relatively small number of attorneys in the U.S. who excel in mesothelioma cases, there will be many sites for “attorneys” who are really case brokers who will sell your case to a “real lawyer” for a fee.

Carefully read through all the legal information lawyers provide on their website. Lawyers who provide good, thorough information are more likely to be legitimate asbestos attorneys who will be a good fit. Distrust lawyers who say little more than, “I can get you millions right away—trust me.”
